

Looking for more energy-efficient heating and cooling?

Switch to a hybrid heating and cooling system for **year-round comfort and savings**. A **Hybrid HVAC** system pairs an electric heat pump and smart controls with a natural gas furnace. The system will automatically switch to your heat pump or furnace thanks to our smart controls, giving you a choice between an environmentally-friendly option, a cost-saving option or a blend of both.

Cleaner energy, within reach

Enbridge offers the innovative Hybrid HVAC technology at **no upfront cost** to you. From design to installation, Enbridge Sustain offers end-to-end solutions, including service, maintenance and energy reporting — all for an affordable monthly fee.

Top reasons to switch to Enbridge Sustain

Innovative, empowering smart controls

Cloud-based smart controls optimize home energy use based on your preferences, Time-of-Use (TOU) energy prices and outdoor air temperature.

Worry-free service and maintenance

Our 15-year contract covers annual checkups and maintenance, priority service for emergencies and repairs, at no additional cost.

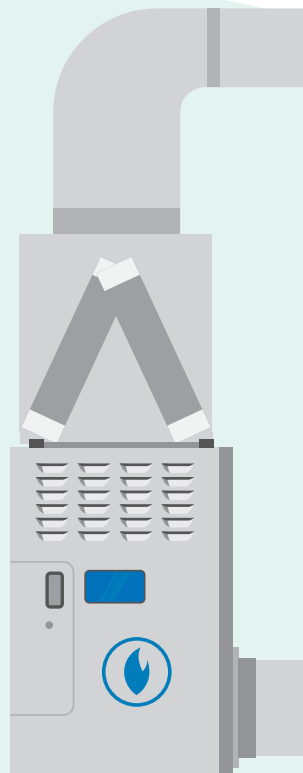

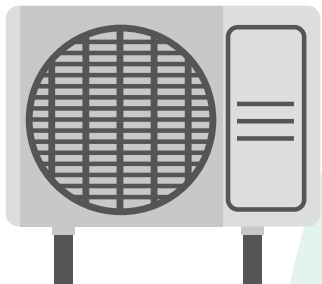

Savings you can count on

Zero upfront cost and affordable monthly fees. Plus, receive personalized reports that show your energy savings.

Smart controls help you save

Enbridge Sustain's smart controls allow you to choose between different options for cost and efficiency.

- **Eco mode:** Optimizes your system to have the lowest environmental impact.
- **Budget mode:** Uses the most cost-effective energy source available.
- **Balanced mode:** Uses a mix of energy sources to balance environmental conscious and budget friendliness.

Simple setup, smart savings

The Enbridge Sustain mobile app is the first and only app on the market that takes various factors into account in real time to determine which equipment to run to meet your needs, including:

- Energy prices
- TOU pricing
- Outdoor air temperature
- Equipment efficiency
- Specific home heating needs

Ready to proceed?

- Homeowners* can qualify with credit approval.
- Your property must not have liens or notice on title.
- Service contracts can be easily transferred with the sale of the home.

Visit enbridgesustain.com to learn more about hybrid heating and cooling.

* Tenants are not eligible for this offer.

Additional terms and conditions apply. Visit enbridgesustain.com for details. As an unregulated business unit distinct from the gas utility, Enbridge Sustain is able to provide a range of sustainable energy solutions.
